

Simplify Every Shift.

Streamlined Task Management for Multi-Unit Teams.

Bring structure to your daily routines. Empower your team to stay organized and accountable with an intuitive platform built for the speed of your business.

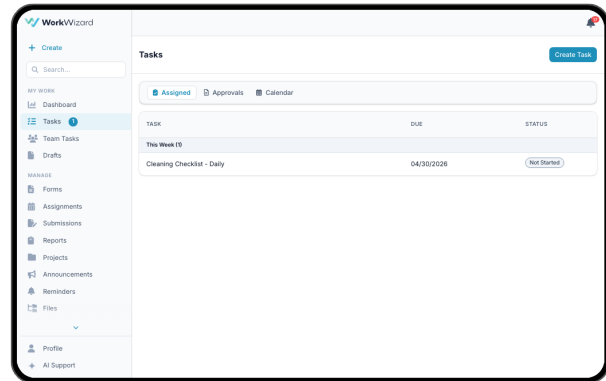

DYNAMIC ROUTINES.
PROVEN CONSISTENCY.

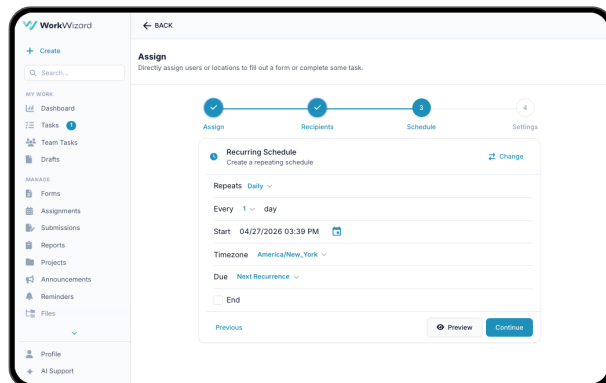

Customizable Task Lists

Tailor every list to your team's specific needs. Whether it's location-specific duties or standardized opening procedures, WorkWizard ensures every employee knows exactly what to do and when to do it.

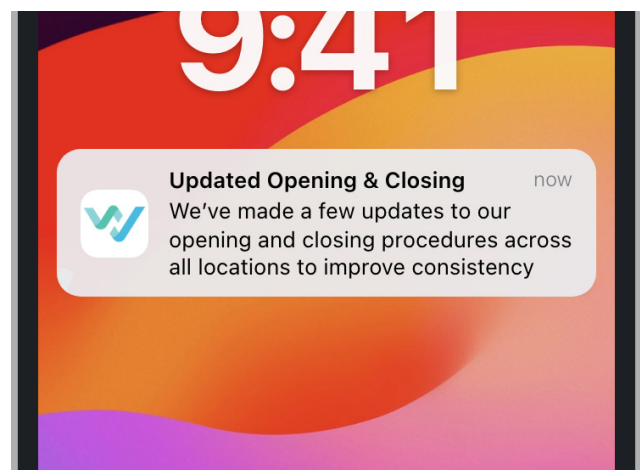

Automated Recurring Checklists

Never let a task fall through the cracks again. Set essential routines—like midday inventory checks or nightly cleaning—to recur automatically, keeping your operations on track even during peak hours.

Instant Real-Time Notifications

Stay ahead of potential problems with proactive alerts. Receive instant notifications for incomplete tasks or issues needing immediate attention, allowing you to address delays before they impact your guests.

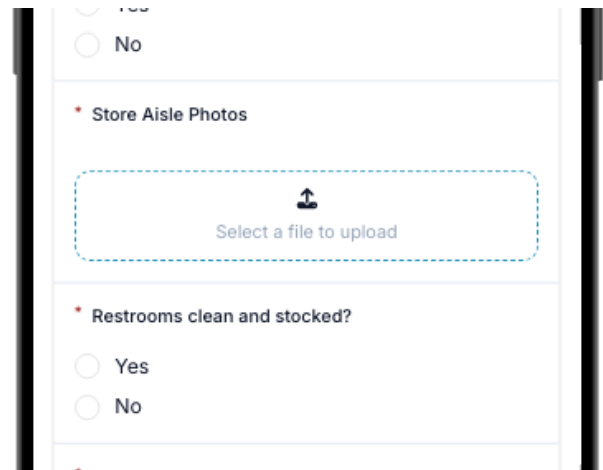

**DYNAMIC ROUTINES.
PROVEN CONSISTENCY.**

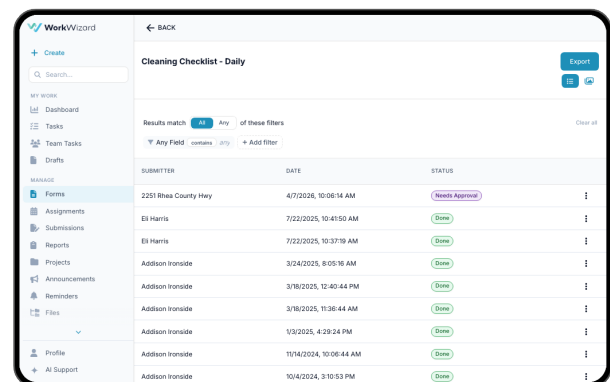

Photo Verification

Verify quality without being on-site. Require photo proof for completed tasks to ensure your standards for cleanliness, organization, and presentation are being met across every shift and every location.

Immediate Corrective Actions

Take control of inconsistencies the moment they arise. Assign instant or recurring corrective actions—like extra restroom checks—with mandatory photo verification to ensure swift resolution and ongoing accountability.

BUILT FOR SCALE

WorkWizard is engineered for the complexity of multi-unit growth, moving you beyond the limitations of site-by-site management. Our centralized system standardizes daily routines and tracks task completion trends across your entire portfolio from a single dashboard. Whether you oversee five locations or five hundred, gain the enterprise-level visibility needed to maintain operational excellence and scale with confidence.

READY TO BRING STRUCTURE AND ACCOUNTABILITY TO EVERY SHIFT?

- Automate recurring daily and weekly routines.
- Verify work quality with mandatory photo proof.
- Address operational gaps with instant corrective actions.
- Monitor team progress across all locations in real-time.
